

Spenders Nurturing

All customers who have spent more than \$100, from the first expenses, must receive special attention!

First of all, you must take extremely precise notes, according to the template given to you in the document “ Detailed Notes”.

Then you have to constantly keep the discussion going... Ask him deep questions, always know how he feels, how his day is going, what his plans are...

@ You really have to act like you're falling in love... And above all, as if you were at the beginning of a relationship.

@It is also very important to always send a message “when waking up” from the model:

- To tell him that the model is awake, and that she is thinking of him. He will feel attention
special, and it feels like a real relationship.

Example: “ Hey (Nickname), I had a wonderful night, dreamed about you 🧡” “ How was your night? How are you? 🧡”

Obviously, it is also very important to always tell her when the model is going to bed, so as not to end the exchange in the middle of a discussion.

Example: “ I'm so tired babe, I'm going to go to bed very soon was 😊” “ I love our connection, and amazing talking with you, it means a lot to me 🧡” 🧡

You must obviously adjust according to the progress of the relationship, and the current situation with the client.
